## Introduction

This document provides an overview of the licensing and pricing for StarBurn SDK. StarBurn SDK enables everyone to add reliable, high-performance CD/DVD/Blu-Ray/HD-DVD burning capabilities to any custom application in just a few minutes. The SDK supports virtually all available burning hardware (including modern high-capacity Blu-Ray and HD-DVD devices) and provides a flexible, solid framework for your application regardless of development environment or target platform. StarBurn takes care of complex issues associated with the burning process such as handling specific optical media types, thread management, intermediate caching and non-standard device commands: allowing you to focus on application development instead of implementation details.

### Notes:

1. All Prices are in US dollars.
2. Educational, Government and non-Profit discounts are applied to MRSP. Contact us for more details regarding educational, government and non-profit discounts.

## How is StarBurn Licensed?

StarBurn SDK has royalty-free distribution model. This means you don't need to pay for every end-user software license sold

License types are subject to such restrictions:

### Professional BINARY Edition

This license type is not restricted in any way in the context of the target developed software. In other words professional BINARY edition can be used in freeware, shareware and any kind of the commercial software. DVD emulator functionality is available while network burning (recording to the remote device over TCP/IP network) is not available in this version. By default one developer's license is included, additional developers licenses can be purchased at extra fee. This edition is offered in binary form only.

### Enterprise BINARY Edition

This license type has no restrictions in target developed software. DVD emulator functionality and network burning (recording to the remote device over TCP/IP network) are available in this version. It also allows unlimited number of developers to use the toolkit. Edition available in the binary and source form.

### Enterprise SOURCE Edition

This license is the same as Enterprise BINARY but provided in full sources (except for DVD emulator functionality and network burning (recording to the remote device over TCP/IP network)).

## License Key Activation / Lockdown

StarBurn SDK uses a license key to control consumption of its software. License keys allow the activation of a StarBurn SDK license. The licensing mechanism does not require activation over the internet – license keys function independently to authorize the activation of a single StarBurn SDK license.

**MSRP (Manufacturer's Suggested Retail Price)**

License Type	Professional	Enterprise	
	BINARY	BINARY	SOURCE
Base Price	\$1,595.00 US	\$2,955.00 US	Contact us
Part Number	RDS-SB-SDK-PRO-1	RDS-SB-SDK-EPR-B-1	RDS-SB-SDK-EPR-S-1
Redistributable and royalty-free (*)	Yes		
Distribution model limitations	No limitations	No limitations	
Number of programmers allowed	One (**)	Unlimited	
Number of projects allowed	One	Unlimited	
DVD-ROM emulator functionality (***)	Yes	Yes	
Recording to remote CD/DVD/Blu-Ray/HD-DVD burner over TCP/IP (***)	No	Yes	
Sample applications (GUI and console) source code	Yes		
Core components source code	No	No	Yes
One year of FREE support via	E-mail and forums	E-mail, forums, IM, and remote session	
One year of FREE updates	Yes	Yes	
Operating systems supported	Windows 32bit and 64bit	Windows 32bit and 64bit	
OCX Wrapper	Yes		

(\*) - Redistributable license means user has rights to embed StarBurn into his own product and either sell or release it for free. Royalty-free means user doesn't need to pay anything except initial flat fee.

(\*\*) - Additional support for extra programmer could be purchased separately.

(\*\*\*) - Only allowed for internal company use. Redistribution to the third-parties allowed under special conditions. Please contact us.

## Volume Discounts

Volume discounts apply to all product sales over the quantity of 1 single license.

StarBurn SDK Volume Discounts:

Professional edition

Quantity	Discount	Standard	Part Number
2-3 licenses	10%	\$1435.5 each	RDS-SB-SDK-PRO3
4-6 licenses	15%	\$1355.75 each	RDS-SB-SDK-PRO6
7-10 licenses	20%	\$1276 each	RDS-SB-SDK-PRO10
10+ licenses	Contact us for a quote		

## Annual Software Maintenance (ASM)

Annual Software Maintenance (ASM) provides major and minor product version releases/updates and technical support for the indicated term. If license owner did not pay ASM for 3 months or more and wants to renew the ASM he/she needs to pay 20% of MSRP as a penalty and cover at least 1 year of ASM.

StarBurn SDK Professional BINARY ASM:

ASM Description	Standard Price	Part Number
1 year Annual Software Maintenance	\$399.00	RDS-SB-SDK-PRO-ASM1
2 years Annual Software Maintenance	\$638.00	RDS-SB-SDK-PRO-ASM2
3 years Annual Software Maintenance	\$861.00	RDS-SB-SDK-PRO-ASM3

StarBurn SDK Enterprise BINARY ASM:

ASM Description	Standard Price	Part Number
1 year Annual Software Maintenance	\$737.00	RDS-SB-SDK-PRO-ASM1
2 years Annual Software Maintenance	\$1180.00	RDS-SB-SDK-PRO-ASM2
3 years Annual Software Maintenance	\$1327.00	RDS-SB-SDK-PRO-ASM3

## License Upgrades

License upgrades not covered by ASM (Annual Software Maintenance) require an upgrade from older versions to the current shipping version. Upgrade licenses are calculated at 40% of the current published full MSRP pricing.

Upgrade to the more advanced edition costs the difference in price between currently purchased and the desired edition. I.e. upgrade from Professional BINARY (\$1595) to Enterprise BINARY (\$2955) would cost \$2955 - \$1595 = \$1360
